EDUCATION

California Polytechnic University

Bachelor of Science, Computer Science

San Luis Obispo, CA

Expected December 2026

Relevant Coursework: Systems Programming, Object Oriented Programming,
Design and Analysis of Algorithms, Programming Languages (In Progress), Statistics (In Progress)

GPA: 3.8

Oxnard College

Associate of Science Degrees, Mathematics, and Physics

Oxnard, CA

Received May 2024

Relevant Coursework: Data Structures and Algorithms, Linear Algebra, Discrete Structures

GPA: 3.9

TECHNICAL SKILLS

Programming Languages: C, C++, SQL, Python, NASM assembly, HTML, R

Software: Visual Studio, Supabase, Render, IntelliJ, R Studio Cloud, Unix, Docker

WORK EXPERIENCE

Smithsonian Institution – Office of the Chief Information Officer (Remote & Field Sites)

Santa Barbara, CA

Data Science Lab Intern

Jun 2025 – Sep 2025

- Developed Python pipelines to extract and process camera trap and acoustic sensor metadata into standardized datasets, ensuring data integrity and compliance with schema standards.
- Designed automated scripts to generate JSON metadata packages and validated against the Camtrap DP schema using the frictionless library.
- Performed root-cause analysis for data inconsistencies and implemented automated solutions, integrating BirdNET outputs into standardized observation files.
- Collaborated with researchers and software engineers to deploy pipelines using GitHub and cloud tools, integrating trends and analysis into actionable datasets.

UCSB Smithsonian Scholars/ ¡ERES! Summer Program & Advanced Data Science STRI

Santa Barbara, CA

Data Science Program Participant

Jul 2024 – Aug 2024

- Imported, cleaned, and analyzed field data using RStudio Posit Cloud to address specific research questions related to biodiversity.
- Gained professional communication, teamwork, and project management skills through daily collaboration with program staff, researchers, and peers.

Oxnard College STEM Center

Oxnard, CA

Tutor/Mentor

Jan 2023 – May 2024

- Tutored and mentored students for 5 hours a week in subjects including Computer Science, Calculus, and Physics.
- Collaborated with fellow tutors to develop effective strategies for addressing diverse student needs and abilities.

PROJECT

Potion E-Commerce API (Python, FastAPI, Supabase, Docker, Render)

- Designed and implemented relational database schemas and API endpoints, applying system architecture and modular design principles for scalable functionality.
- Implemented API endpoints with integrated business logic, ensuring reliable data flow and system integrity, simulating real-world engineering problem-solving.
- Developed support for customizable potion types and built a cart/order system with proper foreign key relationships to ensure data integrity.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Management Leadership for Tomorrow

San Luis Obispo, CA

Career Prep Fellow

Mar 2025 - Present

- Accepted into a selective 18-month professional development program for high-achieving, diverse talent.
- Complete business case studies and assignments to grow leadership and technical skills.

Society of Hispanic Engineers, Cal Poly SLO

Sep 2024 - Present

Member

Computer Science Club, Oxnard College

Oxnard, CA

Board member: Treasurer

Aug 2023 – May 2024

- Co-founded and developed the Computer Science Club to foster a supportive community for students.
- Organized and led events, collaborating with peers and professionals to develop technical workshops and community programs, enhancing teamwork and project management skills.
